

## Welcome to the 2023/2024 Season Tryouts

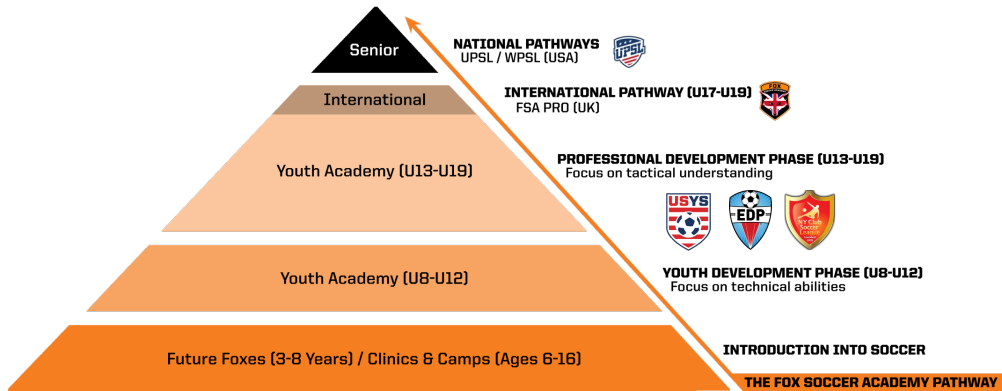

Fox Soccer Academy is an international academy with locations in the USA, England, and Austria.

**OUR VISION** is to provide professional training for players of all ages. Our curriculum is based on the English training methodology and 20 years of professional experience by our founder Christian Fuchs with proven success at the highest level (German Bundesliga, Premier League, MLS).

**OUR GOAL** is to focus on individual player development to reach their potential and create pathways into college and professional soccer.

**OUR VALUES** are the foundation of our academy. Creating a friendly, supporting, and inspiring environment for players and their families. Teaching the understanding that there is more to sport than winning.

**OUR APPROACH** emphasizes tactical, technical, physical, and psychological/sociological development. Players in the Youth Development Phase (U8-U12) will progress in technical abilities throughout their journey. We look at this progression as they enter the Professional Development Phase (U13-U19) to find their technical strengths. This can form their pathways into specific positions.
